COLOUR CHART

Our optional colours are available at an additional cost. Go to www.stelpro.com/orora to learn about our pricing policy.

The colours illustrated are provided as examples and do not necessarily represent the actual hues. For instance, the "anodized aluminum" finish is a special metallic that's impossible to reproduce precisely in print.

No returns will be accepted for orders of products in our optional colours.

STANDARD COLOURS

MB

MIDNIGHT BLUE

Our Midnight Blue is bewitching. Dark and mysterious as the night, it can create a majestic nautical effect or convey royal elegance.

This colour blends in exquisitely with light colours such as whites or beiges by giving them a whole new personality. With warm hues, it creates an ambiance evocative of the colourful landscapes of the South.

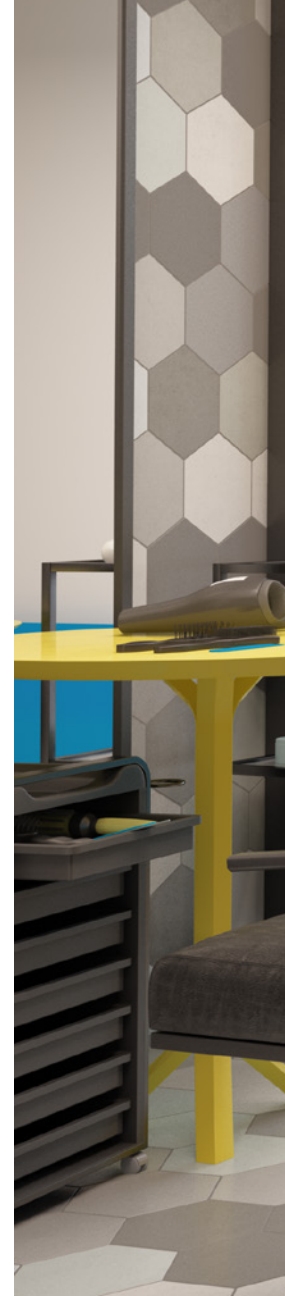

ORLÉANS HIGH-END CONVECTOR- SORL SERIES (LOW MODEL), 1500 W

DB

DENIM BLUE

Our Denim Blue brings to mind aquatic shades and beautiful summer skies. It is vibrant and electric. With its childlike spirit, it isn't hard to imagine it in a playroom or a child's bedroom. This colour is lively and enhances surrounding colours.

This blue hue can transform an ambiance with its unique presence and bring to life traditional or metallic greys, wood or various intensities of white.

TQ

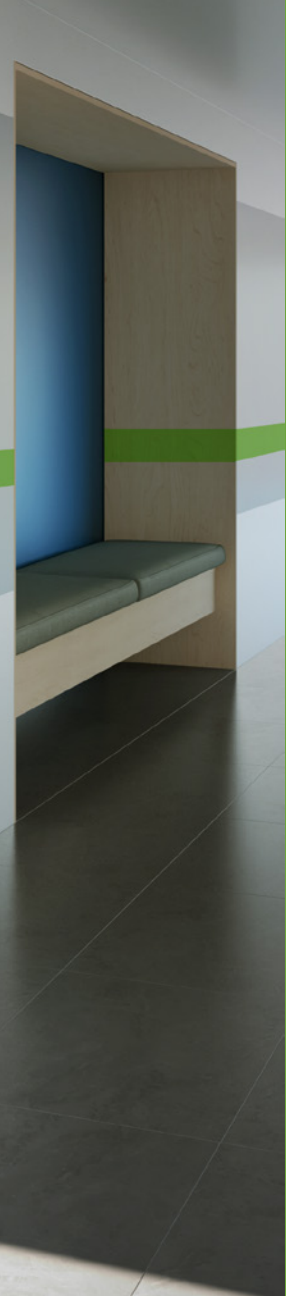

TURQUOISE

Our Turquoise is a soft colour reminiscent of glass and precious stones that has mineral and aquatic qualities. This hue evokes the coasts of Greece and calm and serene environments. It can be soothing and inspiring and blend in anywhere without being obtrusive. In a bathroom, it conveys the purity of water; in a living room, it inspires calm and serenity; in a kitchen, it recalls the retro colours of the 50s.

MG

MOSS GREEN

Our Moss Green is, of course, inspired by nature - the lush fields of Ireland and the summer leaves rustling in the wind. It is also symbolic of the tartness of limes and the earthy flavours of basil and mint.

This colour can also add a designer's touch and a natural look to an industrial setting. A green as perky and vibrant is sure to add freshness and light to any room.

Y

CANARY YELLOW

It's difficult to find a colour as bright and sunny as our Canary Yellow. It is reminiscent of summer sunshine and fresh lemonade. It really conveys happiness.

Both energizing and electrifying, this particular colour adds a radiant touch to an office, a vibrant lemony touch to a kitchen or a joyful brightness to any room.

O

ORANGE

Our Orange has many features, each as inspiring as the next. As bright as the setting sun and as fruity as a freshly squeezed orange, it is similar to that of the warm colours in the South.

It has an urban and energizing feel when matched with greys, blues, white and black. When matched with wood, browns or beiges, it recalls autumn and the comfort and coziness of a warm home.

R

RED

Our Red is proud and powerful. It can convey a classical look or a brilliant festive touch. It is reminiscent of passion and southern climes, and it can be compared to the feisty and warm flame of a campfire.

It also recalls the fruitiness of a strawberry and the spicy bite of a chili pepper. Depending on where it is placed, it can be youthful, traditional, urban, exotic and stimulating.

Every one of our greys has its own personality. Painted anodized aluminum, with its clear tone and metallic effect, provides an interesting industrial touch. Gravel grey, which combines the softness of grey and white, is perfectly balanced and neutral yet adds a designer's touch.

Finally, Charcoal is deeper and more somber and conveys both an urban and organic feel. Although all three have their distinct personality, the thing they have in common is their flexibility as well as minimalist and neutral qualities. They can be subtle and traditional or contrasting and modern.

GRAVEL GREY

ES

ESPRESSO

The richness of our Espresso is remindful of a cup of full-bodied coffee and the raw elegance of wood. This colour has a character of its own and conveys a sophisticated look to your decor.

Warm and luxurious, it blends in with various settings. Alongside sandy, soft white or metallic hues, it adds a unique flavour to any room.

BK

BLACK

The depth of our Black makes it distinctive. It is bold but blends in with both elegant and industrial settings. It can act as a dramatic contrast or add a touch of decadent luxury.

Both pure and dark, this colour is surprisingly versatile. It's a perfect match for wood or metallic surroundings. It stands out in the presence of various colours and creates unity in an eclectic decor.

DRAGON CEILING FAN HEATER - DR11 SERIES, 5000 W

A

ALMOND

Symbol of elegance and distinction, our Almond colour is timeless. Enhancing all spaces and matching all colour palettes, this velvety beige is perfect for classic or rustic decors. This soft and comforting shade lends itself well to natural materials such as wood, linen and rattan. Its versatility makes it a choice that will stand the test of time.

CA

ANODIZED ALUMINUM

Anodized aluminium is light in colour and adds a unique touch to any environment. Its metallic finish lends an urban look or a more raw, natural metal feel. Its versatility allows you to highlight the colours in your room and blend in with them seamlessly.

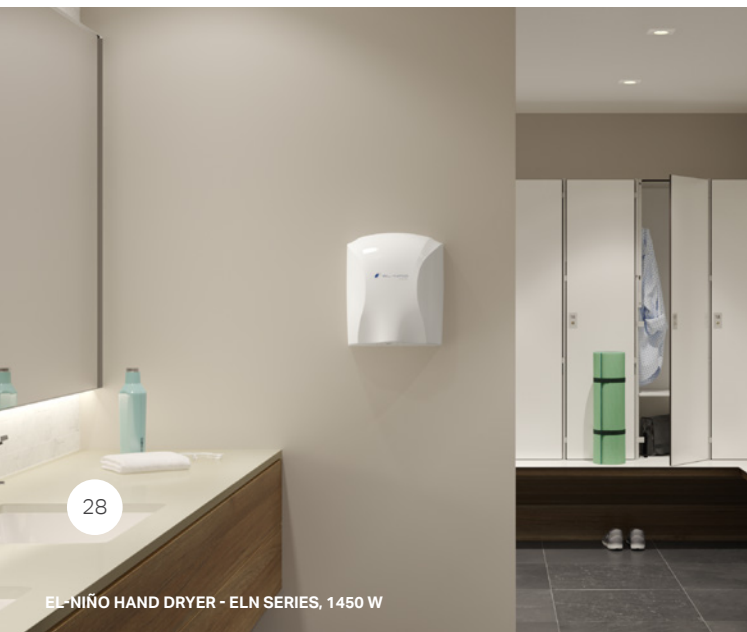

PRIMA HIGH-END COMPACT BASEBOARD - SPR SERIES, 1500 W

W

WHITE

Our standard Whites are two colours imbued with simplicity. Our basic White is pure and fresh like the driven snow. Our Soft White is reminiscent of the limpidity of a pearl and is warmer and softer.

Both colours easily fit into any environment and add sparkle and clarity to a room. They are also versatile and remain classics in a variety of settings.
